Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Status of the Claims

Claims 1-11 are currently pending in the instant application and are the subject of the Office action.

Election of Species

Election of Species regarding Groups I and II

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1. Specifically, the claims encompass multiple species of chemical compounds and cancers.

Applicant is required to elect a single specific compound for

With respect to multiple species of compounds encompassed by the instant generic invention, each chemical compound represents a different chemical entity and reasonably exhibit different pharmacologic and pharmaceutical characteristics. To the extent that different chemical compounds would reasonably exhibit different treatment effects depending on the targeted cancer, these species do not relate to a single general inventive concept. Also, cancers exhibit different morphologic, etiologic, clinical characteristics, and therapeutic responsiveness to the same or different therapy. To the extent that the therapeutic responsiveness of different cancer species is not reasonably predictable, these species do not relate to a single general inventive concept. Thus, the election requirement is proper as the above species lack unity of invention.

Applicant is required to elect for purposes of examination the following:

Art Unit: 1614

a) a single specifically disclosed chemical species wherein each and every variable or optional group is specifically defined e.g. 5-chloro-2-hydroxy-N-[4-(2,3,4,5,6-pentafluorophenyl)-thiazol-2-yl]benzamide (*please note this example is cited for illustrative purposes only and is not intended in any way to suggest or recommend the election of a particular compound; see also specification, page 192, line 11*); and

b) a single specific cancer species e.g. breast cancer.

Applicant is required under 35 USC 121 to elect a single disclosed specie for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is considered to be generic to the above species.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an

Art Unit: 1614

allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
